MACKENZIE ANNOUNCES MULTIPLE PROMOTIONS AND RECENT ADDITION

Portland, Oregon (June 1, 2015) Mackenzie's Managing Principal, Rich Mitchell, recently announced multiple promotions and an addition to the company. Alison Hoagland and Scott Moore have both been promoted to Assistant Department Head of Architecture and Lee Leighton has been appointed Senior Land Use Planner.

With over 10 years of experience, Alison Hoagland serves as the firm's Kroger Account Manager. She has worked on a range of projects at Mackenzie, including retail, commercial, hospitality, educational, industrial, and public safety facilities. She served as project manager for the renowned Stadium Fred Meyer project, which recently received Portland Business Journal's Better Bricks Retail Project of the Year award. Alison is a LEED accredited professional and heads efforts in developing Mackenzie's LEED courses for continuing education. She is also a Green Globes Professional and holds ITC Level 1 certification in thermographic analysis. Alison received a Bachelor of Architecture from the University of Oregon and is a registered architect in Oregon.

Scott Moore brings over 15 years of professional experience to his new role, and has served as project architect for a number of notable projects, including Farwest Steel's manufacturing facility at the Port of Vancouver, the Birtcher Center at Townsend Way, and the Bybee Lake Logistics Center. He has also managed the development of several police and fire facilities, including the award-winning DeLake Fire Station, the Hood River Fire Station, and the City of Gresham's new Rockwood Public Safety Facility. Scott received a Bachelor of Architecture from University of Oregon. He is a registered architect in Oregon and is a member of the AIA and the National Council of Architectural Registration Board (NCARB).

Lee Leighton has over 25 years of land use planning experience. He began his career in the City of Tualatin's Planning and Economic Departments and later transitioned to a private-sector consulting career in 1996. Since that time, he has obtained approval for Comprehensive Plan Amendments, Zone Changes, Conditional Use Permits, Development/Design Reviews, Variances and other land use approvals for development projects in numerous cities and counties. Lee attended Whittier College for his bachelor's degree. He holds two master's degrees: a Master of Community and Regional Planning and a Master of Science in Management in Science and Technology. Lee is a member of the American Institute of Certified Planners (AICP).

"With the most recent promotions of Alison and Scott and the addition of Lee, we are continuing to grow leadership from within the firm drawing from our strengths in client service and design excellence," Mitchell said. "We've put in place some very talented individuals who will help Mackenzie move forward strategically and keep us at the forefront of the design industry."
