MACKENZIE RECOGNIZES BRETT HANSON AS ASSOCIATE PRINCIPAL

Seattle, Washington – On behalf of Mackenzie, Rich Mitchell, Managing Principal at Mackenzie, recognizes Brett Hanson as an associate principal. “In addition to his client-oriented mentality and strong leadership qualities, Brett’s new corporate recognition is highly deserving due to his project design and management success,” said Mitchell. “I am confident he will continue to successfully lead Mackenzie’s growing presence and market expansion in Seattle as an associate principal.”

Branch manager and architectural team leader at the Seattle office, Brett Hanson has been specializing in police and public safety facilities for over the past decade at Mackenzie. In addition to leading over a dozen public projects throughout the

Pacific Northwest, Hanson has also assisted clients in architectural design and due diligence studies for commercial and educational facilities. Hanson strongly emphasizes the use of sustainable design in his projects; he carries LEED credentials and is a certified Green Globes Professional—a certification program from the Green Building Initiative for professionals with in-depth knowledge of green building practices. “I’m honored to be recognized and am sincerely excited about the continued success and growth within Seattle and the Puget Sound region,” Hanson said. “It’s a privilege to work alongside an amazing group of talented people in our Seattle office, and Mackenzie as a whole.” Hanson received his Bachelor of Architecture degree from the University of Oregon, and is a registered architect in Oregon and Washington.

About Mackenzie

Mackenzie is a provider of professional design services comprised of professionals in architecture and interior design; structural, civil and traffic engineering; land use and transportation planning; and landscape architecture. Anchored in the foundational elements of high performance and client focus, Mackenzie brings a deep expertise in commercial office, healthcare, community infrastructure, education, institutional, federal, high tech, public building, industrial, retail, community planning, economic development, and mixed use projects.
