KOIN TOWER WINS BEST IN CATEGORY IN 2017 IIDA AWARDS

Portland, Oregon – The KOIN Tower repositioning has won Best in Category for Public and Civic Institutions at the 2017 International Interior Design Association (IIDA) Oregon Chapter Design Excellence awards. These awards recognize exceptional interior design work around the Pacific Northwest. The renovation embraces modern Portland and refreshes an iconic downtown building.

Mackenzie led the design of the project, working alongside building owner ScanlanKemperBard and brand strategists Think Joule. Lynne Ingram, Mackenzie's Principal of Design - Interiors, led the project team. "It's been wonderful collaborating with SKB to revitalize KOIN Tower," said Ingram. "The project was a unique opportunity to create a fresh space with interactive tenant amenities, such as a large-scale video wall, to enhance a building that's dear to Portland."

Mackenzie's Principal of Design - Workplace, Michael Talbot, said "The project was a true collaborative effort in place making. Along with SKB, we worked closely with Think Joule, the project's brand strategists, to weave design details and building elements together to tell a compelling new story."
