## MACKENZIE RECOGNIZES NEW ASSOCIATE

**Vancouver, Washington** – Managing Principal Rich Mitchell announces the recognition of Chad Lawrence as an associate. “Chad has been a key asset for our civil team firm-wide, and has been a great addition to Mackenzie’s Vancouver office,” Mitchell said. “We are excited to see him develop further in the Civil Engineering Department and grow professionally.”

Lawrence began at Mackenzie as an intern, joining two other staff members at the firm’s Vancouver office. He has grown to be a vital member of that office, which has since grown to 16 staff members. Lawrence is also recognized for his passion and commitment to Mackenzie’s community involvement programs. He has assisted in the civil design of several notable projects throughout Washington, including the Washington Department of Fish & Wildlife in Ridgefield, The Hudson Building, Specht Portside Industrial Park, and the Centennial Industrial Park. “I am grateful for the opportunity to launch my career at

Mackenzie,” said Lawrence. “The collaborative and positive environment at Mackenzie will be key building blocks in the continuing development of my career.” Lawrence carries a Bachelor of Science in civil engineering from Washington State University, and recently passed his Professional Engineer (PE) examination in Oregon.

### **About Mackenzie**

Mackenzie is a provider of professional design services comprised of professionals in architecture and interior design; structural, civil and traffic engineering; land use and transportation planning; and landscape architecture. Anchored in the foundational elements of high performance and client focus, Mackenzie brings a deep expertise in commercial office, healthcare, community infrastructure, education, institutional, federal, high tech, public building, industrial, retail, community planning, and mixed-use projects.
